

# Fireworks in a Jar

## Materials:

1. A tall, clear glass or jelly jar
2. A small dish
3. Spoon and fork
4. A pint of warm water
5. Vegetable Oil
6. Box of food coloring

## Instructions:

Step 1: Fill jelly jar 3/4<sup>th</sup> full with warm water.

Step 2: Add 3 tablespoons of vegetable oil to the dish. Then add drops of food coloring to the oil. Use the fork to mix the food coloring with the oil.

Step 3: Pour the vegetable oil and food coloring into the warm water. Watch the fireworks come to life as the food coloring separates from the oil.
